

REALFLIGHT EXPANSION G3 PACK 1

THE REALFLIGHT G3 EXPANSION PACK!

Combine the G3 Expansion Pack with RealFlight G3, and watch as opportunities for new flight excitement multiply around you.

You can choose to fly an aviation classic. Or, you can take off in one of today's hottest new aircraft. A FlatOuts foamy. A giant-scale Matt Chapman CAP 580. The Heli-Max MX400 electric heli, two Bergen Intrepids and the amazing ION-X. And whatever your choice, you can rely on G3's real-time response and RealPhysics™ accuracy to make a session on the simulator seem more like a trip to the field.

And there are choices in flying sites, too. All three PhotoField™ sites feature cutting-edge resolution that brings more details into crystal-clarity. Choose the outdoor obstacle course, and you can enjoy the best of "living" 3D scenery with the power of the best selling R/C flight simulator in the world — RealFlight G3.
